Bacing Park Prospects.—The Driving park association is now contemplating some im-provements at their course near this city. THE SHOREHAM BUFFET. The Facts of the Case as Stated by Mr.

Morton's Agents. There have been so many conflicting reports regarding the management of Vice President Morton's apartment house that a STAB reporter called on Messrs. Beall, Brown & Co., agents for the Shoreham, to ascertain the facts. Mr: Sevellon A. Brown said: "I am very glad you called, for it gives me an opportunity to correct an erroneous impression that exists in the minds of many people throughout the country. In the first place the agency for leasing the apartments and the general management of the Shoreham was placed in the hands of our firm long before the building was completed. Since we assumed the management, all leases and business arrangements connected with the property have been made by our firm. In the second place their is no truth whatever in the many statements that have been made that there is a bar, saloon or buffet in the building, or that Mr. Morton had signed an application for a license to sell liquors in the Shoreham. In fact in our agreement with Mr. Keenan, the manager, it was expressly stipulated that no part of the building should be used as a bar, saloon or buffet for the sale of wines. malt or spirituous liquors. However, Mr. Keenan found it imperative, in order to supply a family at dinner, luncheon or other meals with a bottle of beer or wine. to take out a hotel license in accordance with the laws of the District. This application was made in Mr. Morton's absence and without his knowledge. "I wish to say now that Mr. Morton's interest in the Shoreham, beyond his ownership, is confined to the revenue derived from the leasing of the apartments. It is just the same as though he owned a row of furnished houses on Connecticut avenue. He would keep those houses in good order, pay the taxes and receive his rent. That is all he does with the Shoreham. He has nothing whatever to do with the success or failas they might contribute to the enhancement or deterioration of his property. Whatever profits are made or losses incurred Mr. Keenan,

the manager, will be alone benefited or in-Changing the Location of the Offices. A change is contemplated in the location of some of the offices in the Post Office department. The clerks in the first assistant's office occupy the rooms on the second floor of the 7th street front with the exception of several occupied by the offices of the railway mail service. It is proposed to bring the entire force of the first assistant's office together, and to accomplish this the railway mail service will be removed toward the F street end of the wing. The office of the superintendent of the dead letter office is in the corner room, and this is the one occupied by General Superintendent Bell. It is expected that other changes will be made in the location of the various offices, but the process will be a rather slow one, as the officials object to moving, and there are always some rooms which are not as eligi-ble as others. The main object, in many in-

stances, is to get the best rooms, and there is a good deal of wire pulling used when a question of this kind agitates the departmental circles The Mandamus Against Gen. Raum. Pension Commissioner Raum has been served with the writ of mandamus returnable December 16 before the Supreme Court of the District of Columbia, commanding him to show cause why he has not increased the pension of Charles R. Miller from \$50 to \$72 per month in accordance with a decision of Secretary Teller. other will to give to charity and distant rela-

The mandamus was issued at the instance of Attorney Bigelow, counsel for Miller. This is one of three similar cases now pending in the Interior department.

Commissioner Raum is preparing his answer and it is understood he will take the ground that his refusal to grant the increase is a matter simply of discretion and that a mandamus cannot lie to compel him to change his discretion; that a mandamus can only lie to compel a public officer to perform a duty laid down

plainly in the law, and, therefore, he thinks the court should dismiss the writ. The Eight-Hour Law for Soldiers. Secretary Proctor has rendered an interesting decision on the subject of extra duty pay for soldiers on the basis of the eight-hour law. He is of the opinion that, as the law fixes the number of hours which constitute a day's labor and the extra pay per day for soldiers employed on extra duty, and as such soldier receives additional extra compensation if he labors on extra duty for more than the number of hours fixed by law as a day's labor, that the correct method of computing the amount which he shall be paid as extra duty pay is to keep a record of the number of hours actually occu-

pied in labor and to allow a day's extra duty pay or each eight hours of actual labor per-formed. Smokeless Powder for Small Arms An important step has just been taken by Secretary Tracy toward the putting of American orduance more nearly on a par with that of Luropean nations. This has been accomplished by an arrangement with the present powder contractors by which they are to furnish the navy with the brown prismatic powder for large guns and the new smokeless powder for small arms. The former material is far berter than that now in use, being more powerful, insuring greater velocity and developing more equal pressures. The value of the smokeless

powder has been demonstrated in the German maneuvers. Interior Department Changes. The following official changes have been made in the Department of the Interior: Patent office,-Appointment: Ernest H. Fairbanks of Massachusetts, fourth assistant examiner, \$1,200.

Office of Indian affairs.—Appointment: James L. McGlone of Virginia, copyist, \$900. General land office.—Resignations: Nicholas D. Bragaw of Coiorado, clerk, \$1,400; Miss Lydia J. Ray of Illinois, \$1,000. Of these offenders one hundred and forty seven were convicted, and five hundred and fifty-nine cases were awaiting trial. 47,579 complaints were received against the ordinary mail, of which 16,297 are still on hand.

LYNN IN FLAMES. The Worst Conflagration the City Has Ever Seen.

LYNN, Mass, Nov. 26.-What promises to be the most disastrous fire Lynn has seen for years started at 11:55 a.m. today over the barber room in Mower & Bros', four-story wooden building on Almont street. In ten minutes the entire rear of the building was in flames. The six-story brick block known as Momer's block, which faces on Willow street, next caught. Fifteen minutes after the fire had started it was beyond control. At 12:15 o'clock it looked as if J. C. Bennett and Barnard's large four-story wooden factory would have to go, and also two other large wooden factories on Almont street. A heavy wind is blowing and big cinders are floating through the air. J.C. Bennett and Barnard's big factory is afire on the end. At 12:30 p.m. the fire was spreading rapidly. At least twelve large buildings are in danger. Bennett & Barnard's factory, Momer's brick block and five or six other wooden buildings are on fire. The flames have crossed Central avenue and Pike's corner is afire. The large wooden building facing on Central square in which is located the Daily Bee is also on fire. The cinders crossed Central square and ignited the four-story brick Fuller block, in which are the Western Union telegraph office and C. D. Packen & Co., shoe manutacturers. At 12:40 p.m. the flames communicated to G. O. Falls' wooden building. The building occupied by the Lynn Daily Press is on fire and the flames are rapidly burning their way toward Railroad avenue. A strong wind is now blowing from the southwest, 'If it holds the Currien block and the Stevens block are seriously threatened. Should they burn there is no pre dicting where the conflagration will be stopped.

At 12:50 p. m., the wind has shifted a trifle and is blowing directly toward the new brick block of W. M. Currien & Co., which is on fire

HELENA, MONT., Nov. 26.-There were no new developments in the legislative dead lock yesterday. The committee from the republican house called on Gov Toole and informed him that their body was ready for business. The governor received them courteously and said that while personally he was glad to see them he could not recognize the committee officially, as the body they represented had not met in the place designated by him as the legislative assembly hall.
